You're looking good my friend
You're looking right
You've got a winner's face
You're quite a sight
So won't you come on in and step right up
We have a Neumann mic

We've got a song for you
We have a tune
Another killer verse for you to croon
Even a chorus man if we got time
We'll say you found the rhyme, alright?

We'll let the voters in now smile
And laugh and look your youngest
They've got to love you cause they know us
And we choose the finest

Oh what a night my friends
We're almost done
A brilliant time was had by everyone
Even the runners up can be someone
Even the runners up won

We'll let the voters in now smile
And laugh and look your youngest
They've got to love you cause they know us
And we choose the finest
