I can always get there first if I drive it really fast
I get all the parts for nothing and that's why I'm never
last anyhow
I wait for no one because no one waits for me I can do it
with my eyes
Closed doing a hundred and twenty three oh but the
light says straight ahead
I don't care for green or red I brake for no one I can
count to ten or twenty
Anyway I'm still alive like the driver on the tv get a life
at twenty five
But the light says straight ahead I brake for no one
