Can I use it all can I take it in
If it goes too fast will you let me win
I hope I'm nothing for you
If I spit it out will you stuff it in
Will you break my back just to get it all in
I'm glad I'm nothing for you and I can't go back
No I can't go back I'll turn my head 'till it all goes black
And I can't go back I'm new in colors in every way
So it all comes down to the place I found
And your sorry face was all around
I hope I'm nothing for you so you had a plan
And you kept it all in don't you thing it's time for the
rest to win
I'm glad I'm nothing for you I'm new in colors in every
way
In time it's all around you I'm crawling in and
I'm halfway through I'm new in colors in every way
