I was a lonely man in a lonely bar in a lonely city in a  
lonely world  
when she came in on the devils arm  
she looked so damn good when she said to me "its not  
like they said it would be, lonliness is beautiful strange  
and free"

the happy families mean nothing me, mean nothing to  
her, mean nothing at all, with the happy families you  
wont find us  
the rich and the good mean nothing to me, mean  
nothing to her, mean nothing at all  
with the rich and the good you wont find us  
take my hand, ill do what i can do  
hang on girl, i know youve grown so tired of your fellow  
man

we have no friends or money, so lets go honey  
no one misses people like you and me  
i know you dont like precious things  
but i'm gonna steal you a diamond ring  
and get you out of here forever  
oh yea...

take my hand, ill do what i can  
hang on girl, i know youve grown so tired of your fellow  
man!
