Intro:

Like an assassin
Shooting my heart down
Like an assassin
Shooting my heart down

Verse I:

I got my guard down
I put my hands up
Hoping you'd turn around
Hoping you'd turn around

Just like a politician
You talk yourself up
You're just an empty promise
I gotta wake up

Prehook:

I try and i try
I hide in disguise
Request you to love me
but you just decline
I give you my heart
I trust you to keep it
But you throw it away
And all i'm left with is pieces

Chorus:

Like an assassin
Shooting my heart down
You gain ammunition
When i pour my heart out

Verse II:

I got a problem
I know the remedy
I gotta give you up

But your taking over me
Its like your on a mission
To tear me up inside
But i refuse to listen
Even when my heart cries

Prehook:

I try and i try
I hide in disguise
Request you to love me
but you just decline
I give you my heart
I trust you to keep it
But you throw it away
And all im left with is pieces

Chorus:

Like an assassin
Shooting my heart down
You gain ammunition
When i pour my heart out

Bridge:

Its a cold cold world when you've got nothing left
Just a picture perfect melody you'll never forget
Close my eyes when i see ya
Caz i cant bare to see the real ya

Chorus:

Like an assassin
Shooting my heart down
You gain ammunition
When i pour my heart out
