don't be scared
i won't hurt you

i'll be there
i won't leave you
yeah here we go

the f, f
the a
the y, d
double e, double e
the f, f
the a
y, d, double e
i'll make you feel

baby close your eyes
can i touch you there, touch you there
show you how it feels
to love again, love again
take you as you are
i want nothing more, nothing more
cos i'll give you all you need
girl you know that you can count on me

i'll make you feel, feel, feel
like no other man has made you
feel, feel, feel
girl i promise you my love is real
real, real, real
promise you love and more, promise you love and
more
promise you love
i'll make you feel, feel, feel

it's only you and nobody else
do what i'm gonna do
to keep you to myself
i'll give you love, show you life
i'll take the wrongs and i'll make it right
i promise ya i'll make it right

i promise ya i'll make it right
i promise ya i'll make it right
so just put your trust in me
and i'll be all you need
together you and me
forever you will see

i will make you feel
i'll make you feel, feel, feel
like no other man has made you
feel, feel, feel
girl i promise you my love is real
real, real, real
promise you love and more, promise you love and
more
promise you love
i'll make you feel, feel, feel

don't be scared
i won't hurt you
i'll be there
i won't leave you
promise that you have my word
make you feel like you deserve

don't be scared
i won't hurt you
i'll be there
i won't leave you
promise that you have my word
make you feel like you deserve
yeah one more time now

i'll make you feel, feel, feel
like no other man has made you
feel, feel, feel
girl i promise you my love is real
real, real, real
promise you love and more, promise you love and
more
promise you love
i'll make you feel, feel, feel
