Uh, baby, I'm not tryna waste no time
So get your ass over here
I want your body on top of mine
While you whisper up in my ear

Sayin things that got me
Got me takin off my clothes in a heartbeat
Tonight is all about you
All of this is for you
So baby put it down on me

You know I like it when you kiss me there
You know you like it when I bite your neck like that
Take your time, baby don't be scared
Baby, you're in good hands, you're in good hands

[Chorus]
Let's take it to the morning light
All night, take your time, take your time, take your time
Let's do a little bump and grind
All night, take your time, all night long
Take your time, take your time, all night long
Take your time, take your time, take your time

Uh, baby, I'm not tryna waste no time
So stay right there for me
Tease me, you can play with my mind
I'll picture you on top of me

Sayin things that got me
Got me takin off my clothes in a heartbeat
Tonight is all about you
All of this is for you
So baby put it down on me

You know I like it when you kiss me there
You know you like it when I bite your neck like that
Take your time, baby don't be scared
Baby, you're in good hands, you're in good hands

[Chorus]

Let's take it to the morning light
All night, take your time, take your time, take your time
Let's do a little bump and grind
All night, take your time, all night long
Take your time, take your time, all night long
Take your time, take your time, take your time

You know I like it when you kiss me there
You know you like it when I bite your neck like that
Take your time, baby don't be scared
Baby, you're in good hands, you're in good hands

[Chorus]

Let's take it to the morning light
All night, take your time, take your time, take your time
Let's do a little bump and grind
All night, take your time, all night long
Take your time, take your time, all night long
Take your time, take your time, take your time

Take, take your time
All night
Take, take your time
Take your time
All night
Take, take your time
Take your time
All night
Take, take your time
Take your time.
