Butterflies fly far away and hearts cry
Birds wonder why tomorrow is another day
Another day of missing you
Another day close to the next time
I wish I could hold you in my arms tonight

When can I see your eyes again lost in a spell
Take me home the place you know so well

When you held my hand at night
Before you went to sleep
I could feel the world between us
But you gave me sad good-bye
Nothing is the same there's only pain
Living without you

I walk alone with emptiness beneath the stars
I just can't forget how you whispered in my ears
Another day of loneliness
Another day closer to the next time
I wish I could hold you in my arms tonight

When can I see your face again lost in a spell
Take me home the place you know so well

Time takes the pain away
When you stay so near
Everything we fear will disappear
There is nowhere that I would rather be
Nothing is the same there is only pain
Living without you

When can I see your smile again lost in a spell
Take me home the place you know so well

When you held my hand so tight
Before we went to sleep
I could feel the world between us
But you gave me sad good-bye
Nothing is the same there's only pain
Living without you

Living without you
lalala...
Love you, love you, love you
Living without you
