Sabishisou ni narabu BIRU no mure wo nuketara  
Kimi ga suki da to itta kanashii uta ga nagareta  
Aseri to hayari ni makesou na n da  
Mado no soto ame  
"Ikiru no wa dare no tame?"  
Konna yoru ni kimi ga ireba...  
When I pass through the buildings that are lined up as  
if they were lonely  
The sad song that you said you love was drifted  
It seems like I lost out to impatience & popularity  
Rain outside the window...  
"Who do I live for?"  
If you were here on a night like this...

Suki da nante ienai  
Kono omoi wo tsugeta nara  
Kimi wa kitto kiete shimau ne  
I'll keep it in my heart  
Hontou wa motto furete itai  
10(juu)nengo no kimi ga mitai  
Demo kanawanu negai  
You're breaking my heart again  
I can't say that I love you  
If I tell you these feelings,  
You will surely disappear, won't you  
I'll keep it in my heart  
The truth is I want to touch you more  
10 years from now, I want to see you  
But it's an unfulfilled wish  
You're breaking my heart again

Usu ya iji mo mie mo  
Yowasa no uragaeshi da yo to  
Sukoshi warainagara oshiete kureta yo ne  
Dakara,  
Toki ni wa hitasura wagamama ni  
Namida o nagashite mitemo ii yo ne?  
Nee konna, atatakana omoi  
Zutto wasureteta  
You make me feel so alive  
Lies, pride, vanity,

The inside-out of a weakness  
You taught me those things while laughing just a bit,  
didn't you  
That's why  
In that time, it's ok if I cry selfishly  
From the bottom of my heart, right?  
Hey, I was always forgetting  
These kinds of warm emotions  
You make me feel so alive

Suki da nante ienai  
Kono te wo ima nobashitara  
Kimi wa sotto kiete shimau ne  
I'll keep it in my heart  
Hontou wa zutto issho ni itai  
10(juu)nengo mo kimi to itai  
Demo kanawanu negai and  
You're breaking my heart again  
I can't say that I love you  
If I reach this hand out to you now,  
You will quietly disappear, won't you  
The truth is I want to be with you forever  
Even 10 years from now, I want to be with you  
But it's an unfulfilled wish &  
You're breaking my heart again
