A simple word or two
I need a little clarity
If you make it clear
Doubt will surely disappear

If I could see your hand
I bet you'd win
So make me understand
Before I fall in love with you again

Take me carefully
I believe in you
The words you say
Break me willfully
Are you deceiving me?
The words you say

I am fragile now
Beat about the head
Was I gullible?
Absolutely so
The only way I know

You're getting me down
You never call
I stop to wonder what
I did or didn't do enough

Until you say the word
I'll stay right here
I wanna be with you
But if you want me gone
I'll disappear

Take me carefully
I believe in you
The words you say
Break me willfully
Are you deceiving me?
The words you say

I am fragile now

Beat about the head
Was I gullible?
Absolutely so
The only way I know

Days of rain
Watch the river of tears roll by
Wash away
The pain of several years go by

Days of rain
Days of rain and I wonder why
Wash away
Wash away as a flood gone by

Days of rain
Watch the river of tears roll by
Wash away
The pain of several years go by

Days of rain
Days of rain and I wonder why
Wash away
Wash away as a flood gone by

I only wanted things that will make you happy
I only wish for you that you find your way
I only hope you see that you made things happen
I only wish that you could be right someday

I only wanted things that will make you happy
I only wish for you that you find your way
Days of rain
Days of rain
