Fucked underneath between days  
Fucked underneath between days  
Mind explode and mind corrode  
Fucked underneath days  
Underneath days  
You never want to say the word to me  
You never want to tell me what you want me to be  
You never want to tell me  
You never want to tell me  
You never want to see the things I try to show you  
You never want to see the places I could go to  
You never want to see the places I've been  
You never want to see the things I've become  
Fucked underneath days  
Fucked under these ways  
You never want to let me go my own way  
You never want to let me find out for myself  
You always stand above me  
Underneath days  
You never get out of the way when I say  
You never stand in the shadow  
You never stand anyway  
You never stand anyway  
Fucked underneath days  
Fucked under these ways  
You never want to say the words "I do"
