You plead with yourself,
But it's me that you want
It's the same thing every time, every time
I am determined not to fall
Into that trap again
It's the things I need for myself
And not a way to validate

I'll partner up with some gray statue
That never moves or goes on dates
Chasing the one who's running away
While being chased by the one you don't want
It's the race to be whole and it's always unfair
It'll break your heart for a while
Break your heart for a while
Passion hoping wanted
To you to be
What you are Today
What you are Today
The shapeshifting, weightlifting
And hope the presentation
Will catch his eye
And it did, and many saw the string
He grabbed it
And lead you on your leash
You are burning up
Sleeping with anyone but yourself
And just the moment you break
And just in the moment you break
You're closing the deal
You walked it to the other side of the world, and closed
it
The door, in your face

[SOLO]

You never give me the things I need
And yet I stay here wracked with need
Hoping you will see the things I need
But I've come to learn, You don't even see, I am
invisible to you don't even see
I am invisible to you don't even see

I am invisible, who needs to dream,
I don't want to dream about that future
I only hope, that I can make it till tomorrow, who
needs to dream
I don't want to dream about that future
I only hope, that I can make it till tomorrow,
That I can make it to tomorrow,
That I can make it to tomorrow
