Fake satisfaction.
False suffocation.
Until the time came, I never knew it.
I began to get bored with things around me.
As time goes by, I've had my doubt about it.

Broken imitation.
I break through.
I've gotta seek for the true growth.
It makes us brings to the next step.
The day we lost will be true.
We'll never become just like you.

A vague future.
A vein logic.

Until the wind blew, I never knew it.
I've stayed away from shedding blood.
I've hesitated to win.
But now I know everything.
Never forget. Never overlook.

I've gotta search for the true growth.
It makes us brings to the next step.
The day we lost will be true.
We'll never become just like you.
Bloody nightmare comes at last.
Bloody nightmare comes at the night.
