I was always lonely. Just creeps around me.
Even such people will disappear someday.
I know I'm the one who is the most creepy.
Its a such a thing, suck a thing. I'm still alone.

Hey, what do you aim at?
Hey, what do you get today?
The guilty fame it spreads again..
Hey, what do you take next?
Hey, when do you go away?
Dishonest fame it spreads again.

Both the face and the name were just senseless things.
How many people were passed by till now.
I'm not saying that I want your affection.
Sincerity is necessary. Who gives me mercy.

A cruel thief and a traitor everywhere.
Am I just used.
