"The Phantom In The Depth"

Visit "[The Phantom In The Depth](#)" on MotoLyrics.com

I've roamed in the depth.
Spend spitting days.
Broken promise. Broken trust.
That hasn't changed right now.

Something in my heart.
I'll show you everything.
I know it's empty or disgusting of dark.

All I lost leaves me alone.
I've been finding the way to get it back. Get it back
All I lost leaves me alone.
I've been finding the tools to break down my conceit.
Nobody knows the way to escape from the jail of
freedom.
I wanna be a sharp man.
I wanna set myself free.

So I've roamed in the depth.
I've left despair when I lost my destination.
I've always been full of hate and loneliness.
Break forth the phantom surrounding me.
Get back all I lost, I forgot.
Get back all I lost.
