"Voice Spread Wide"

We are distressed too much under complete control.
Closed door. No windows. Keeping it air tight.
The place we arrived in search of freedom and
revolution.
There are those who seek us again.

We've got the detailed mission. They lose their grip.
Somehow some hope escapes outside.
We've got the tickets at last. Get in the space ship.
This time is ours. Your voice spread wide.

Voice spread wide.

We are gonna make a movement. My heart is running
out.
Dark mask. Silent steps. Through their eyes.
This is a crowd of people who gave up knowing,
learning
Nothing here. Take a sword. We don't have time.
