I have a proposition for you, baby come through  
You're sexier than ever, electric completion  
Strong conversation, your presence ...  
She .... want me, cause I'm successful  
She's more than a beauty, she's so magical  
... and tell it... on the same, ...

Extraordinary, lady you are  
She's got the ... just can't help but get close  
... woman, ...can touch the sky...  
Extraordinary, that's what she is...  
Extraordinary woman, you are,  
Come back and welcome to your world

She is a star, floating in my space  
... into my heart, she cannot be replaced  
When I close my eyes, I see her face  
She .... want me, cause I'm successful  
She's more than a beauty, she's so magical  
... and tell it... on the same, ...

Extraordinary, lady you are  
She's got the ... just can't help but get close  
... woman, ...can touch the sky...  
That's what she is, ... amaze me  
Extraordinary, that's what she is...  
Extraordinary woman, you are,  
Come back and welcome to your world  
...the hottest girl I've even seen  
...this is inevitable passion  
Extraordinary, lady you are  
She's got the ... just can't help but get close  
Extraordinary woman, you are,  
Extraordinary, that's what she is.
