Lyric:

think about it, you & me together  
lovin each other, aimin there forever  
think about it, you & me together  
lovin each other and

(said) think about it, you & me together  
lovin each other, aimin there forever  
think about it, you & me together  
lovin each other and

now i dont wanna scare you  
baby i just wanna say  
the little things you do for me (and the way)  
you workin towards my last name  
i see you babe, said i see you babe

i can see my, future in you  
no other girl, for me will do  
cuz i can see my, future in you  
got me lookin forward to, forever  
cuz i can see

think about it, you & me together  
lovin each other, aimin there forever  
think about it, you & me together  
lovin each other and

(said) think about it, you & me together  
lovin each other, aimin there forever  
think about it, you & me together  
lovin each other and

now i dont wanna rush nothing, baby just know  
when you say youre ready to go, we'll go  
to get the dog a house and all  
tell me you see it baby

i can see my, future in you (in you)  
no other girl, for me will do  
said i can see my, future in you (future in you girl)

got me lookin forward to, forever  
cuz i can see

not tryna move too fast  
but i just gotta ask  
do you see what i see for us girl  
and is it too soon, to look at you  
like i do, the way you make me feel  
is the stuff forever is made of

i can see my, future in you (in you girl)  
no other girl, for me will do  
said i can see my, future in you (in you)  
got me lookin forward to, forever  
cuz i can see

think about it, you & me together  
lovin each other, aimin there forever  
think about it, you & me together  
lovin each other and (think about it)

think about it, you & me together  
lovin each other, aimin there forever  
(you & me forever baby)  
think about it, you & me together  
lovin each other and (think about it baby)

think about it, you & me together  
lovin each other, aimin there forever  
think about it, you & me together  
lovin each other and (think about it)
