Diving into the mid-air-silence
Earth under your seat
The night gives birth to all the stars
A silver bird brings you back
I am travelling with you
Just as a travel in my mind
A feeling like falling from these stars
Struggling in the winds dance
Through the wall of universe
Landing in your childhood trance
Do you feel it?
I am travelling with you
Just as a travel in my mind
Not a bird, not a leaf
So up and high
Where a silver bird to berlin
Will dive into a moon lit sky
I am travelling with you
Just as a travel in my mind
