Her soft breath and simple charm

Wandering through memories

Takes my hand for me to see

Tried so hard

Tried so hard

Echoes of innocent

Are my thoughts into dissent

Tried so hard

Tried so hard

Tried so hard

Tried so hard

When we finally reach the end

She lets go of my hand

Waking into realms of light

There will be no death tonight

Tried so hard

Tried so hard

Tried so hard

Tried so hard

Fear Factory A Therapy For Pain
