From the wasteland, cold steel under my waistband  
Hazardous times, enemy lines  
Drawn in the middle of the streets  
The concrete's stained with blood, I still got to eat

When I hit the street I made the man understand  
I fought with flesh and I bled like a man  
I rode that edge of darkness my friend  
Stood up to the enemy so life could begin

You know you've got to  
Back the fuck up  
You know you've got to  
Back the fuck up  
You know you've got to  
Back the fuck up  
(Back up off of me)  
You know you've got to  
Back the fuck up  
(Back up off of me)  
(Back up off of me)  
(Me)  
(Off of me)  
(Off of me)  
Back off  
Back off

Traces of ignorance, offense of hatred  
The faces change in the same old places  
Dark nights and lost souls collide to cross those  
The line between a death and dream

I never wanted to lead your leash  
To pull around your ton of grief  
I'll come back with a fist of lead  
To educate your mind with a blow to your head

You know you've got to  
Back the fuck up  
You know you've got to  
Back the fuck up  
You know you've got to

Back the fuck up  
(Back up off of me)  
You know you've got to  
Back the fuck up  
(Back up off of me)  
(Back up off of me)  
(Me)  
(Off of me)  
(Off of me)

Don't let the time pass waitin' for the answers  
You are exposed to all of the danger  
Don't let the time pass waitin' for the answers  
You are exposed to all of the danger  
Don't let the time pass waitin' for the answers  
You are exposed to all of the danger  
Don't let the time pass waitin' for the answers  
You are exposed to all of the danger  
You are exposed to all of the danger  
You are exposed to all of the danger  
You are exposed to all of the danger  
Danger  
Danger  
Danger

Huh, you know you've got to  
Back the fuck up  
(Back up off of me)  
You know you've got to  
Back the fuck up  
(Back up off of me)  
You know you've got to  
Back the fuck up  
(Back up off of me)  
(Off of me)  
(Off of me)  
(Off of me)

Don't let the time pass waitin' for the answers  
Don't let the time pass waitin' for the answers, ah  
Don't let the time pass waitin' for the answers  
Don't let the time pass waitin' for the answer  
Don't let the time pass waitin' for the answer
