"big god"

In America today, every 25 fucking seconds
Someone is viciously raped, someone is brutally
violated
250 times a day, someone is murdered
Someone's life is taken in America
This is America, this is America
And I love America, I love America

No remorse for the pain
Look into the eyes of death
Strong man cannot endure
Big God of this earth

Liar
Big God, no God

Take back this life
Give back this world
Woe to you of earth and sea
Big God will always be

Liar
Big God, no God
Burn

God raped souls of our lives
Hammers crush all our lives
Just like clockwork
They'll crush our lives
