Machines of hate

Hey you, wake up
Open your swollen eyes
Erosion invades your mind
A cancer that grows over time

Hey you, rise up
Rise to fight, eliminate
Burn your fuse to detonate
The human machines of hate

All these years they've tried to break you to your knees
Anger scours right through your veins
Now it's time to put an end to all the lies
Now it's time to take control of your life
Now it's time to put an end to all the lies
Now it's time to take control of your life

Persist for resistance, resist their insolence
You are a dissident, burn away conformity
Hypocrisy you can't believe
Machines of hate, a disease that infiltrates
Persist for resistance, resist their insolence
You are a dissident, burn away conformity

All these years they've tried to break you to your knees
Anger scours right through your veins
Now it's time to put an end to all the lies
Now it's time to take control of your life

Persist for resistance, resist their insolence
You are a dissident, burn away conformity
Persist for resistance, resist their insolence
You are a dissident, burn away conformity

All these years they've tried to break you to your knees
Anger scours right through your veins
Now it's time to put an end to all the lies
Now it's time to take control of your life

They have tried to break you

They have tried to break you
They have tried to break you
They have tried to break you
