One nation, one nation of Gods
Divided by faith, nation divided by faith
Witness deliberate war of attrition
Witness deliberate war of attrition

Judge me not, judge lest you be judged
Eyes are blind, blinded by violation

I hate your contention
I hate your violation
I hate your corruption
I hate your life destruction

I hate your contention
I hate your violation
I hate your corruption

I hate your life destruction

I am your enemy
Witness deliberate war of attrition
Kill my mind, my mind is the weapon
Words are banned, words meant to enlighten

I hate your contention
I hate your violation
I hate your corruption
I hate your life destruction

I hate your contention
I hate your violation
I hate your corruption
I hate your life destruction

I am your enemy
I will resist endlessly
Endlessly, endlessly, endlessly
