After the smoke clears
And the pain subsides

Will there never be an end?

Lying on the pavement
Looking at the sky

Will there never be an end?

Where is the finish line?
Racing against time

Will there never be an end?

After the smoke clears
And the pain subsides

Will there never be an end?
Will there never be an end?
Will there never be an end?
Will there never be an end?

Will there never be an end?
