Why do they hate us- you ask stupidly  
Covered in the dust of your perfect world  
Why do they hate us- we did nothing wrong  
We were just living our dream  
I can't understand their rage  
We brought them peace and democracy  
We freed them from their daily slavery  
And taught them our perfect dream  
We reached out our hand to them  
To live the better way  
We reached out our hand to them  
Maybe you have to see- the other side of the coin  
While we grow obese- millions daily starve  
While we sail our yachts- boat people risk everything  
To escape the war  
Your dream fertilizes the seed  
The seed of wealth through greed  
I die for all this greed- as i bleed

I hate the world you adore  
Just see the poor begging for more  
They'll crush you and your greed - as we bleed  
We worry about our stock market- while many attempt  
to live on less  
Your dream is a nightmare for millions!  
Can this be called civilization?  
How can we accept this obvious injustice  
Without wanting to change this unfair state?  
And no one is innocent as long as we tolerate the lies  
about the state of the world  
That's why they hate us- does it make sense to you?  
This might be the reason- it's in our hands  
And no one is save when the south will turn to north one  
day  
Poverty ignites the hate that will burn us all  
Their vengeance will break you
