To hunt the ones I am here for  
I don't care how long it will take, in a culture of fear I  
please expectations  
If it bleeds it leads, we all know so well  
I feed the needy - I feed them fear and I will she'd not  
any precious tear  
The distance of these motives is wide, I'm standing on  
the safer side

[Chorus:]

I'm here to spread Anxiety, I will fuel all your fear

I capture human tragedies, I'm here to catch the  
moments of pure despair  
Agony is fueling me, Anxiety is ruling me

[Chorus]

In a culture of fear I please expectations  
In a culture of fear I satisfy you
