Pump all the fluids inside your flesh - cut your skin
Keep fighting the worst enemy of yours
Pump all the fluids inside your flesh - cut your skin
Enjoy your new born reflection

Let us spit
In their face
Let us just enjoy our long life
Their decay
Not for me
I'll be defeating time

{Chorus}
Eternal youth eternal life
Fighting ghosts of time and age
Eternal youth eternal lie
Fighting ghosts of time

Pump all the fluids inside your flesh - cut your skin
Beauty it has to hurt sometime - they say

See myself
So perfect
That I could almost cry
Not average
Nor out of mind
I'm just living my dream

{Chorus}

Watch them all drown in the streams of time
I won't be harmed of these passing years
Watch them all break - burden of age

{Chorus}
