By now it's been a long time
Awaiting to separate you from your kind
Not knowing why I made you mine
All your fate is now in my hand

No! I won't miss out on you now
Await your certain end

I totally adore you!
I like your tasty flesh

I won't miss out on you now
Await your certain end
I won't miss out on you now
Await your certain end

I like feasting on you my dear
Only your skin will remain
I like feasting on you my dear
Only your skin will remain

The price for you my yellow coated friend
Has gone down - I'll get another load for you

No! I won't miss out on you now
Await your certain end
I won't miss out on you now
Await your certain end
I won't miss out on you now
Await your certain end
I won't miss out on you now
Await your certain end

I like feasting on you my dear
Only your skin will remain
I like feasting on you my dear
Only your skin will remain
