Lyrics by: FEAR THY NAME

Can you feel the misery?  
Can you hear the pain inside?  
Open your eyes to watch the world  
Coming down towards the end

Only pain is real  
The dreams are alive  
A confused mind is trying to rise  
Deep in the woods there is the answer  
The secular tree  
Our glorious star...

Immortal life, eternal wish  
As years go by we fall into the abyss  
And when the mist rises in the sky  
We shall watch the night conquers the day  
To complete the final circle  
The circle of hell...  
The circle of hell...  
The circle of hell...

They are seven deep inside  
Seven demons under my eyes

When the keys are in the place  
We will open the gates  
To unleash the power within

Astral pentagram will show us the way  
To complete the last and supreme art  
Of world domination  
By the nocturnal powers  
An army of death  
Will conquer... everlasting... Earth...

Immortal life, eternal wish  
As years go by we fall into the abyss  
And when the mist rises in the sky  
We shall watch the night conquers the day

To complete the final circle  
The circle of hell...  
The circle of hell...  
The circle of hell...

By the sign of the pentagram  
We are under the circle of hell!
