Its Bubba Sparxx in the streets (2x)

I just hitch hiked my way from Athens to Cascade
Paid homage for three days been written the past eight
I feel I'm the last great warrior of written lyric
You can move to Polo Club bitch you still ain't gettin
near it
If its Bubba spittin fear it, this that shit legends made
of
It'll take more than a flag for them folks to segregate
us
Hook it, let it cake up prepare it for whole sale
This my mother fuckin heart I dont care if it dont sell
I dare you to go tell, your people that Bubbas bogus
Im sorry, did my antics interrupt your fucking focus?
Dammit I guess its hopeless, y'all just wont listen
When I'm rhymin to provide you with diamond that dont
glisten
I had to be the one, this shit was my birth right
You content with moving units, I'm faced with a worse
plight
To give you a verse like, that first hit of extascy
Yeah you special in your click but you ain't shit up next
to me
And if you get the best of me, nah, that shit ain't
feasable
Cuz trying to get a hold of Bubba is like chasing a
greasy bull

Its Bubba Sparxxx in the streets (The coolest white boy I
know)

Its Bubba Sparxxx in the streets (C'mon know y'all dont
really want it)

Shit these boys dont really want it, the just mumblin to
be heard
Damn y'all wasnt lying, sleepy crumblin in some sweet
herb
Im humble till my speech slurs, then its off the
bleachears
In the closet with your wife enticing her to floss her

features

This one 'ot to teach you, it aint fun to play with Bubba
Took a rich prissy bitch and played her this and made
her gutta'

But she made me late for suppa', and I dont eat but
once a day

Im tryin to watch my weight cuz my street days a month
away

And I want these sluts to love me, but if they dont then
fuck 'em

Cuz tomorrow if they swallow, if they wont the I duck
'em

I bet y'all never seen one of me look so clean

Kept it right here in the South and did it with a good ol'
team

So hate it if you must, but I made it and you can trust
That every vowel out my bowel, is sacred it just to us
They played it and made a fuss, cuz the truth is a
frighten topic

Ricky pull the plug, shit, thats all that might could stop
it

Its Bubba Sparxxx in the streets (The coolest white boy I
know)

Its Bubba Sparxxx in the streets (C'mon now y'all dont
really want it)

Its Bubba Sparxxx in the streets (The coolest white boy I
know)

Its Bubba Sparxxx in the streets (They just mumblin to
be heard)

Im through noddin my head to shit, thats anythin but
monumental

Cant just settle for La Grange, therefore my slang is
continental

From my road to your trap, my code is no dap

If your head is like a keg, chillin ice cold with no tap

Five shows with no nap, I'll sleep when I in the dirt

Ain't tryin to party with you industry faggots I come to
work

Emergin from the hurt, that life was and still will be

Took a shower at the dungeon, dried off and was still
filthy

These bitches will feel me, I promise just bein honest

Its like its '93 again, got that heat for them

premadonnas

Wide eyed in the booth, this goes beyond politics

In other words keep that pussy, I already got a bitch

And I'm pledgin not switch from authentic to
counterfeit

Cuz when it comes to that raw, y'all hit it I found the shit

And I wont speak in the dungeon, till its hardway on the wall
In the name of Bubba Sparxx, shit ain't even fair for y'all

Its Bubba Sparxxx in the streets (The coolest white boy I know)

Its Bubba Sparxxx in the streets (C'mon now y'all dont really want it)

Its Bubba Sparxxx in the streets (The coolest white boy I know)

Its Bubba Sparxxx in the streets (They just mumblin to be heard)

Its Bubba Sparxxx in the streets (The coolest white boy I know)

Its Bubba Sparxxx in the streets (C'mon now y'all dont really want it)

Its Bubba Sparxxx in the streets (The coolest white boy I know)

Its Bubba Sparxxx in the streets (They just mumblin to be heard)

The coolest white boy I know

They just mumblin to be heard
