"Down to the River"

Visit "[Down to the River](#)" on MotoLyrics.com

Let's go down to the river
We could sing those lullabies
We'll go back to consider
The meaning of our ever changing lives

Cause we know
Solace will be waiting
As we drift on the edge
We climbed every mountain
We've crossed every bridge
Just to get back to you
Where the other side live

There's no sound like a river
We sit and watch it passing by
We take time to deliver
Emotions that still bleed inside

Cause we know
Solace will be waiting
As we drift on the edge
We climbed every mountain
We've crossed every bridge
Just to get back to you
Where the other side live

Going back [x16]

Going back [x14]
To the river..
To the river..
To the river..
