### "In Times of Crisis"

Visit "[In Times of Crisis](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Feeling that there's never enough  
Can you save us  
'cos you never know what it was like to be the under-  
seiged  
How can we make it all stop  
Won't you tell us  
'cos we're waiting here staring at clocks until it's time  
to leave

So far away  
We can see can lights on  
so far away  
from here

We may lose our minds  
In times of crisis  
But we will stand up tall, side to side, again  
Find a way, find a way, find a way together  
We have gone so far today

Counting all the hours away  
As we cross ground  
never knowing what's gonna be next to come, but we  
move on  
Deafened by the weapons you fire  
As we fall out  
As we look around, rounded by desert sand from this  
cruel land

So far away  
We can see can lights on  
so far away  
from here

We may lose our minds  
In times of crisis  
But we will stand up tall, side to side, again  
Find a way, find a way, find a way together  
We have gone so far today

Broken by the sorrow of loss

How should we be  
Are we gonna be one of the casualties that each day  
leaves  
How can we make it all stop  
Won't you tell us  
'cos we're lying here trying to sleep at night with fear  
inside

So far away  
We can see can lights on  
so far away  
from here

We may lose our minds  
In times of crisis  
But we will stand up tall, side to side, again  
Find a way, find a way, find a way together  
We have gone so far today

Find a way, find a way, find a way together  
We have gone so far today
