Pull back my skin, look deep within
Transparent grins, the more you kill me
Just see how it is
Just see how it really is

There's radiation in my head
Can't you see, I'm going mad
See the color of my skin
Turning blue as I breathe in

There's radiation in my head
Suffer for life, my soul divides
I'm reaching high, but no one sees me
Just see how it is
Just see how it really is

There's radiation in my head
Can't you see I'm going mad
See the color of my skin
Turning blue as I breathe in

There's radiation in my head
Suffer for life, my soul divides
I'm reaching high, but no one sees me
Just see how it is
Just see how it really is

Get it out, get it out, get it out

Trapped in my shell, my fingers melt
All by myself, I'm all by myself
Just see how it is
Just see how it really is

There's radiation in my head
Can't you see I'm going mad
See the color of my skin
Turning blue as I breathe in

There's radiation in my head
Suffer for life, my soul divides
I'm reaching high, but no one sees me

Just see how it is
Just see how it really is

There's radiation in my head
Can't you see I'm going mad
See the color of my skin
Turning blue as I breathe in

There's radiation in my head
Suffer for life, my soul divides
I'm reaching high, but no one sees me
Just see how it is
Just see how it really is

Radiation, radiation

There's radiation in my head
Can't you see I'm going mad
See the color of my skin
Turning blue as I breathe in

There's radiation in my head
Suffer for life, my soul divides
I'm reaching high, but no one sees me
Just see how it is
Just see how it really is

You hear me breathe a little more
And see me walk into the storm
The more you give yourself away
