"The Sad Skinhead"

Apart from all the bad times you gave me
I always felt good with you
Going places, smashing faces
what else could we do?
what else could we do?

Apart from all the good times I gave you
you always felt bad with me
I was nervous, you were nervous
what else could have happened to us?
what else could have happened to us?

Apart from all the bad times you gave me
I always felt good with you
Going places, smashing faces
what else could we do?
what else could we do?
