Turning over again, here for another day,
Still the thoughts of a dream, fragments you cant
escape,
i wont let you down, wont let you down
i wont let you down
victoria
lets take it from the start
back to the beginning
victoria
i cant breathe when were apart
without you theres, nothing without you

standing out in the rain, watching the traffic slow
as the light begins to fade your warmed by the city
glow
i wont let you down, wont let you down
i wont let you down,
victoria
lets take it from the start, back to the beginning
victoria

cant breathe when were apart, without you theres,
nothing without you
theres nothing
theres nothing
nothing

Turning over again, healed for another day
victoria
lets take it from the start
back to the beginning
victorious
cant breathe when were apart
without you theres nothing, without you.
