## "W I T"

Visit "[W I T](#)" on [MotoLyrics.com](https://MotoLyrics.com)

She's looking good in the new town  
Looking clear in the new crowd

He's so funny to be with  
So easy to book in for love

See you, you see me, we could be free  
I'll let you know, women in towels

Take a look at the old suit  
Hang around in the old school

She's looking cool with her hair down  
Feeling high in the fairground

See you, you see me, we could be free  
You got to live, so you could breathe

I wish you could, just see yourself  
No shame in pain, women in towels

It's not what you are, its what you do  
It's not what you are, its what you do

See you, you see me, we could be free  
You got to live, so you could breathe

I wish you could just see yourself  
No shame in pain, women in towels
