She's looking good in the new town
Looking clear in the new crowd
He's so funny to be with
So easy to book in for love
See you, you see me
We could be free
I'll let you know
Women in towels
Take a look at the old suit
Hang around in the old school
She's looking cool with her hair down
...on the fairground
See you, you see me
We could be free
You got to live
So you could breathe
I wish you could
Just see yourself
No shame in pain
Women in towels
It's not what you are its what you do
It's not what you are its what you do
See you, you see me
We could be free
You got to live
So you could breathe
I wish you could
Just see yourself
No shame in pain
Women in towels
