Shut up and sing -- Shut up an sing -- Shut up

and sing -- Shut up and sing -- Now shut up...

I will have to zap the channel if he talks too long

Arsenio is in my face, can't he sing a song?

Beats and puns and metaphors it sounds a lot like rap

Without any melody its just a bunch of crap

Those words were like soda -- flat and without fizz

Frosty cold but very old that's just the way it is

Witty wordy solos, a motor mouthing riff

A driving dictionary careening off a cliff

Shut up and sing -- Shut up and sing -- Shut up

and sing

Don't elucidate, don't elaborate

Don't persuade, please serenade

We'll coagulate

Shut up and sing -- Shut up an sing -- Shut up

and sing -- Shut up and sing -- Now shut up
