

Feel "Come Down"

Visit "[Come Down](#)" on MotoLyrics.com

If I didn't know my phone was working
I'd say the wires were clipped
It hasn't rang since I called the operator
To test my line again
You used to call with sweet sounding words
Going on about your day
I have to be honest
I never followed along
Only listened to the sound of the things you'd say

CHORUS
Come back

Come back
And give me one more chance
To get along with you

Her now outstanding she
A fleeting memory
Of who she was, has, is and does
Her no good
To her now outstanding she
Going on about her day
Have to be honest I never followed along
Only listened to the sound of the things you'd say
