It wasn't you me who said he'd suffer
so you could suffer too
It's too late
I refuse to believe
It took so long for me to convince you
You're the most beautiful thing in a world turned ugly
I've seen it before

It's about time I make you choke on all of your words
Won't stop 'til I say
Time to burn the next one off the line
We're taking this as far as it goes

It doesn't matter where you run
There's no one here
It's over
Stop saving yourself
Look away
I never meant anything

With every intention you show,
you're darker than my soul
I can't stop what you've started
'til you I stop breathing

It's about time I make you choke on all of your words
Won't stop 'til I say
Time to burn the next one off the line
We're taking this too far

You've seen my side, goodbye
Tear down the walls, their eyes have seen far too much

When you weren't there beside
I would watch the walls for hours
I was thinking of ways to carry on

I killed for your love
My guilt and ignorance
would cause your descent
You're walking away with his ghost
Replace me

I'm just a shadow in your eye
In complete desperation my morals escape me
I'm empty
I'm heartless
I'm selfish
If I can't find redemption
I'll burn in wander hell for you

You can't stop what I've started
'til I stop breathing

You can't stop what I've started
'til I stop breathing
You can't stop what I've started
'til I stop breathing
You can't stop what I've started
'til I stop breathing
You can't stop what I've started
'til I stop breathing
