The mess she's made
It's over
Look at the way they roll their eyes
It's not fair
It's a disease they breed
It's make-believe
It's fit for Hollywood

She's been grieving
Lost the cross she used to wear

I'm not the only one
I've been playing out
A scene and story on a hidden set

The choice she's made
because of the night he had his way
It's not fair to cast your stones of ignorance
You're the one who should be ashamed of this

She's been grieving
Lost the cross she used to wear
She's been grieving
Lost the cross she used to wear

I'm not the only one
I've been playing out
A scene and story on a hidden set
Everything will be okay

She won't return to him she says
She won't feel sorry angry this is over
It doesn't matter 'cause they're never gonna give it up
It doesn't matter 'cause she won't stop giving it up
It doesn't matter 'cause she won't stop giving it up

I'm not the only one
I've been playing out
A scene and story on a hidden set
Everything will be okay
I'm not the only one

I've been playing out
A scene and story on a hidden set
Everything will be okay

It doesn't matter 'cause they're never gonna give it up
It doesn't matter 'cause she won't stop giving it up
It doesn't matter 'cause she won't stop giving it up
It doesn't matter 'cause she won't stop giving it up
