If you don't stand for what you want
It won't be this good
You won't feel alive
You'll be barely there
Barely breathing
You can't sell us out
We won't compromise ourselves
If you don't stand for something
You'll far for anything

Would you believe your words are not the same
because I think you don't

Lights out but we'll keep singing
We've lost faith in everything
You can't save us
but we can save ourselves

Even though we can't change the mechanics of this
industry
You won't feel alive
in this industry
You're barely breathing
Now it's time to stop
to stop buying into the lines

If we don't stand for something
We'll fall for anything
If you don't stand for something
You'll fall for anything

Lights out but we'll keep singing
We've lost faith in everything
You can't save us
but we can save ourselves

We can rely on you to keep us going, keep us going
So we put our dreams on tape for you

Lights out but we'll keep singing
We've lost faith in everything
You can't save us

but we can save ourselves

Lights out but we'll keep singing
We've lost faith in this industry
We've lost faith
