When will our conscience grow  
We're burning bridges in haste  
Somehow we are too proud to let go  
You know that none of us are getting out of this  
The truth hurts, don't cut it out cut it out

What are we running from?

Distort our vision, make some explanations  
for your exploitation

You've always painted black and white  
and you won't compromise  
What's killing us is pride

We'll tell the world and watch it spread like fire  
You'll know where we're coming from  
'cause here comes the revolution  
bearing our souls to stop  
the blood on the asphalt  
There's blood on the asphalt

Plead for your rights  
When you've got it all  
You've got something to hide  
Throw it out throw it out throw it out the window  
Do they sleep in the sand for our crimes  
Was it worth the distance?  
Will it make a difference tonight?

We are running out of options  
You've always painted black and white  
and you won't compromise  
We'll tell the world and watch it spread like fire  
You'll know where we're coming from  
'cause here comes the revolution  
bearing our souls to stop  
the blood on the asphalt  
the blood on the asphalt

We'll tell the world and watch it spread like fire..

(With open eyes) Open your eyes and start seeing the  
world  
for what it really is  
Don't make another mistake  
They can only lie to us for so long

Open your eyes and start seeing the world  
Open your eyes  
Open your eyes and start seeing the world for what it  
really is  
Don't make another mistake  
They can only lie to us for so long
