Touch me  
It's such a beautiful reaction  
Shining like the sun  
I want more  
And I'm craving satisfaction  
But it never comes

You say it's love  
But it feels like a drug  
And I want you so much  
But it only makes me hate you  
You pick me up just to throw me down  
Yeah you're my habit now  
And I just have to break you

[Chorus:]  
Hey hey you you yeah yeah  
Get off of my back  
Hey hey you you yeah yeah  
Get off of my back  
I feel you stepping on my wings  
And I would anything  
To get you off  
To get you off of my back

A warm rush jammin up like a freeway  
When I'm next to you  
Sweet stuff  
And it's running through each vein  
When I'm next to you

It sounds dumb  
But it leaves me numb  
Till I don't know what I want  
But I'm needing your protection  
You're so hot  
And you love me a lot  
But what we've got  
Feels more like an addiction

[Chorus:]

[Bridge:]

I've been living lately  
Like I'm dying all the time  
Might do something crazy  
Like jumping off the Hollywood sign  
Cause boy you make me  
Feel like I can fly

You say it's love  
But it feels like a drug  
And I want you so much  
But it only makes me hate you

[Chorus:]

Hey hey you you yeah yeah  
Get off of my back  
Hey hey you you yeah yeha  
Get off of my back  
I caught you tearing up my wings  
And I would anything
