I can't answer all your questions  
And I can't tell you who to be  
All I know is, this is real life  
Sit and wait for heroes to fly  
That's as good as sitting and waiting  
To drain blood from a stone  
This is real life  
Second chances don't come easily  
This opportunity,  
Will be the hero that sets you free  
This is another day  
You will find a better way for sure  
To be happy and live your whole life  
You'll be fine, this is real life now  
Now you know this moment won't come  
You have to make this happen  
This is not a movie
