We all take one look,
And make up our minds.
If left much longer,
He'll slowly die (die)

I said to you,
Not to push it too far.
Look at what you've done,
Now.
Run or hide,
It's the only chance of survival.

Cries in silence.
Tormented by your torture.
And they'll always be another way to feel yourself,
Guarenteed.

Stop pretending.
Ascenend to all of this madness.
You know,
You'd do it all again.

Stop you're killing them!
Stop you're pretending!
Stop you're killing them!
Stop you're pretending!

I said to you,
Not to push it too far.
Look at what you've done,
Now.
Run or hide,
It's the only chance of survival.

Cries in silence.
Tormented by your torture.
And they'll always be another way to feel yourself,
Guarenteed.
Yeah.

Stop pretending.

Ascend to all of this madness.
You know,
You'd do it all again.
Stop pretending.
Ascend to all of this madness.
You know,
You'd do it all again.
Do it all again.
Last chance of survival!

Stop you're killing them
Stop you're... Killing them!

Stop you're killing them!
Stop you're killing them!
Stop you're killing them!
Stop you're killing them!
