How 'bout an ovation
For all the endings in your life
What an occasion
Top stop the bleeding in your mind
My mentor, such deep depression's hard to break
Can't savor in sorrow.

Waiting for a brilliant and illustrious return...

What can ya say for your life?
What are you gonna say, what are you gonna say?

How 'bout a vacation
From all the issues in the way
I'm feelin' elation
For all that's possible
Today will suffer
Will you be leaving us again?

Won't see you tomorrow

Content to make them wonder...
Waiting here resilient while the time has burnt your
hands

What can ya say for your life?
What are you gonna say, what are you gonna say?

Broaden the health of your mind
And reflect on your history
Piling on years of reclusive behavior and mystery

Empty today

What can ya say for your life?
What are you gonna say, what are you gonna say?

What can ya say?
