Show your face  
Give me your head  
Don't interrupt me, listen to what I say  
Your fake fear makes me smile

There's no way out  
I'll show you how it feels  
No way out  
Your tears are arousing me

You don't deserve to taste how life is  
Feel my breath getting more intense  
By every single second

No way out  
Experience to face death

You'll rot  
Come taste my pestilence  
You'll rot  
Smell your burning flesh  
Go the fuck, rot  
Please my passion

Bury your hopes  
Forget your faith  
'Cause now you're mine  
Show me your face
