Postal fever, Dow Jones,  
N'Sync, Rolling Stones,  
Nasdaq, Taliban,  
Income dies, Vidal Salon.  
Crack babies, School Prayer,  
Columbine, Electric Chair,  
World hunger, dot.com;  
It's time to drop the honeybomb.

It's time to make the world a better place,  
Let your love lay your fears to waste.  
'Cause everything you think you know is wrong,  
It's time to get together; drop the honeybomb.

Ethnic cleansing, CIA,  
Ghetto Nation, Getaway,  
Global warming, national debt,  
Unemployment, biothreat.  
Hunger strikers, income gaps,  
Hate crimes, Officemax,  
MTV, teenage moms,  
It's time to drop the honeybomb.

It's time to make the world a better place,  
Let your love lay your fears to waste.  
Everything you think you know is wrong  
It's time to get together and drop the honeybomb.

It's time to let the light shine from within.  
Don't fight the feeling, just give in,  
No matter who you are and where you're from.  
It's time to get together; drop the honeybomb

The honeybombâ€¦  
The honeybombâ€¦  
The honeybomb.

Got to get mine, then get yours;  
Got to get his, then get hers.  
It's all about the car, the cash, the clothes;  
Got to get me some of those.

Nike, Diesel, Gucci, Saks,  
Dolce & Gabana slacks,  
Abercrombie, Prada, Gap;  
Just can't get enough of that;

Greed & sloth & ignorance  
That's circumstantial evidence  
The world we seem to hold so dear  
Only seems to nurture fear  
Distrust drives the world apart  
And Brings us down and breaks our heart  
This is the storm before the calm  
It's time to drop the honeybomb

It's time to make the world a better place,  
Let your love lay your fears to waste.  
Everything you think you know is wrong  
It's time to get together and drop the honeybomb.

It's time to let the light shine from within.  
Don't fight the feeling, just give in,  
No matter who you are and where you're from.  
It's time to get together; drop the honeybomb.

It's time to make the world a better place  
Let your love lay your fears to waste  
'Cause everything you think you know is wrong  
It's time to get together and drop the honeybomb

The honeybombâ€¦  
The honeybombâ€¦  
The honeybomb.
